

YEAR IN REVIEW

For the first year since 1994, the total dollars wagered on all charitable gaming activities increased. During the 2001-2002 reporting period, total charitable gaming dollars wagered (\$266,464,279) increased by 2.75 percent from the previous reporting period, but declined by 34.73 percent when compared to its peak year in 1994 when wagering reached \$408,222,880.

Wagering on bingo and pickle cards decreased during the reporting period while wagering on county/city lottery (keno) and lottery/raffle increased for the same period. As was the case in the previous seven reporting periods, pickle card sales showed a decline, down 4.33 percent. Bingo continued the decrease started in 1994 with a further decrease from last year of 5.41 percent. Lottery/raffle activity is at an all-time high and increased by 7.65 percent from last year. County/city lottery wagering increased for the fourth year in a row with an increase of 6.54 percent over last year. As a result of the overall increase in wagering, gaming tax revenues were also up this reporting period (2.19 percent) when compared to last year.

The ongoing in-state use of illegal video gaming devices continues to have a negative effect on legitimate charitable gaming operations in Nebraska.
